

1. substance / preparation and company name:

1.1 identity: RENATURE

1.2 manufacturer: Storopack Packaging Systems France S.A.S  
10 rue de l'orgisset  
52110 NULLY  
Tel: +33(0)3 25 55 41 52

2. composition / information on ingredients

2.1 components: maizegrit, water, herbal extractions  
patented manufacturing method

3. possible hazard

3.1 hazards identification: inflammable

3.2 special risks for humans and environment: none

4. first aid measures

RENATURE is not toxic and needs no specific measures.  
Eyes should be rinsed with water with water if exposed to  
dust. General information about medical treatments is not  
necessary.

5. fire fighting measures

5.1 all certified extinguishing agents are permitted

5.2 special risks: none

5.3 special safety equipment: none

6. accidental release measures

6.1 personal precautionary measures: escape route, keep  
away from ignition  
sources

6.2 measures for environmental protection: none

6.3 measures for cleaning / collecting: none

7. handling and storage

7.1 handling: no specific demands

7.2 storage: protect from solar radiation, store in dry conditions

8. exposure controls / personal protection

8.1 No specific precautions necessary.

9. physical and chemical. propertie

9.1 form: cylindric

9.2 colour: white

9.3 odor: none

9.4 other: The product is comparable with damp wood with a humidity of app. 20%

10. stability and reactivity

10.1 conditions to be avoided: direct contact with water

10.2 dangerous reactions: none

10.3 dangerous decomposition products: none

11. toxicological information

RENATURE is not toxic.

12. ecological information

RENATURE is totally biodegradable. The burning of this product is not a problem because it needs only so much oxygen during the burning-process which it produced while it grows. It behaves CO<sub>2</sub>-neutral.

13. disposal consideration

13.1 advice: The product should be reused if possible. Otherwise it should be composted.

14. transport information

RENATURE is not dangerous in accordance with the international regulations for transport and storage classifications.

It does do not breach any import/export restrictions.

15. regulatory information

RENATURE is not classified as dangerous and does not breach any restrictions.

16. other information

none

These statements describe exclusively the security requirements of the product and rely after best knowledge on the current state of our knowledge. They represent however no assurance of characteristics of the product in the sense of liability directions and/or guarantee directions and result non-binding.
